

For President, GEN. JAMES A. GARFIELD OF OHIO.

For Vice-President, GEN. CHESTER A. ARTHUR, OF NEW YORK.

Election Tuesday, October 12, 1880, For Secretary of State, CHARLES H. TOWNSEND, of Athens. Judge of Supreme Court, GEO. W. McILVAINE, of Tuscarawas

Clerk of Supreme Court, DWIGHT CROWELL, of Ashtabula Member Board Public Works, S. R. HOSMER, of Muskingum. School Commissioner, D. F. DaWQLF, of Summit.

Democracy is thoughtful, but pricks up its ears and winks sardonically, when ever Seymour's name is mentioned.

Now that Garfield is on the course, let Tilden be the nominee of his party and we shall see how he will be distanced

sideration. The active part taken by him at the Convention in favor of Grant, is the cause of displeasure.

Ex-Senator Bayard of Delawars died or the morning of the 18th, after lying un conscious for several days. This result was hastened by a fall in descending a flight of stairs a short time since.

The first and only man that ever bear Grant seems to be Garfield, and when we consider how easily it was done-without trying-may we not expect that there are other, if not greater triumphs in reserve

Garfield and Arthur are said both to be practical temperance men and fear God, and these characteristics mould their lives and will be likely to model their administration and have a wholesome influence upon life at the capital.

A sweeping Republican victory next fall signifies union, peace, progress and prosperity throughout the Republic, while a victory for the Democracy must prove a cala mity, as it means reaction, sectional strife and bitterness, currency linkering and uncertainty, and consequent business depression.

A Washington dispatch says that the Secretary of War has considered the propriety of ordering the Whittaker case be fore a court martial where the accused. may have the right to vindicate himself which his friends say was not afforded him at West Point. This course, it is said, has been pretty much determined

The Norwalk-Ct.-Gazette mys; "Mr. The Norwalk—Ut.—Gazette says: "Mr. Garfield is well known in Norwalk, baving spoken here, and being intimately acquainted with many of our people. We can safely promise him a rousing majority in this vicinity, and to this end the first Garfield and Arthur campaign club will soon be organized. Success under Garfield's lead leaves the government in loyal hands for the remainder of this century. God bless the noble boy; the nobler man; the to be President.

There is, perhaps, a tolerable chance for Senator Thurman for accepting a second place on the ticket at Cincinnatt, if this would be to his mind and fill the measure of his ambition. Mr. Seymour seems to be the man boomed for the first place-if he will not persist in refusing, positively and peremptorily to be a candidate. Though his age is 70, his estensible weakness his real infirmity-we are inclined to think. is a habit of declining. The Vice-Presi dency is better than nonentity.

The picture of General Garfield sent us by the Leader is very true and life like. The Cincinnati Commercial prints in its sheet of the 12th, likenesses, as the under writing informs us, of General Garfield and Hon. C. A. Arther-candidates for President and Vice President. The first would answer as well for any other denizen of Parkopolis or elsewhere, and that of the Vice President, might answer equally well as the cynosure of the O'Connor legislature or any other felon in that body or the pen-Hentlary.

outs him deeply. He was exceedingly anxious to be re-appointed a trustee of the Soldiers' Homes and labored dilligent- stances.

A 50 page pamphlet devoted to the Ronan Catholic Church in New York, City Public Land and Public Money, by Dexter A. Hawkins, A. M., of the N. Y. Bar. Its manner of handling the church may be gathered by a quetation from its title page, which we give as a foretasts preceeding the reading, as follows:

It opposes the Public Schools.
It multiplies Pauperlam and Crime.
It has obtained densitions of public city lots to the amount of ... \$3,500,000.
Public money in cleven years... \$6,043,698.

Total \$9,543,626.
It is now drawing from the pub-lic treasury annually \$700,000.

The Democrats in Congress are not a little alarmed over the determined and united action of the Republicans in opposing the resolution which has passed providing for the electoral count. The Democrats say the Republican program is to declare the right of the Vice President to count and declare the votes, and that in counting, the Republican candidates will be supported by the power of the Government at the hands of a Repub lican administration. Having looked the thing all over, and weighed it in all its aspeets, even to its possibilities, it is not a little unfortunate, that it affords no more consolation. A Republican administration stands. In the way of making good the counting in business!

In the House of Representatives on Priday last the Sundry Civil Service bill was under discussion. In the absence of Genera; Garfield, Sunset Cox, of New York, attempted to make a little campaign capital. He charged that Garfield was a free trader with a record as such. This statement was quickly squalched by Mr. Gar-field's colleagues in a brief and summary manner, as the following from the Conessional proceedings will show;

The Greenbackers in the National Convention at Chicago, nominated James B. Weaver of Iowa, for President, and B. J. Chambers of Texas, for Vice-President, and B. J. Chambers of Vice-Presiden

Nomination .- There is but one sentisent with regard to the nomination and that is general and enthusiastic approval. The strength of the party will be polled out to the last Republican. The vote will, therefore, be a full one, and with a full yote, success is beyond a peradventure. We have no side issues. We are united, and thus far we are unable to see what distracting issues can be started. Our opponents hope to unite on Horatio Seymour of New York, a man of worth, against whom nothing is said, but although all the pre saure possible is brought to bear upon him to induce him to stand, his positive refusal to allow himself to become a candidate, seem to put him out of the field. If he stands to his integrity, it will leave the party almost without cohesiye attrac-The old man Tilden is so cordially hated by his own parly that there does not seem any possibility of concentration upon him. Senator Bayard is dead. Paine is an Ohio man, and not within the ring, and therefore, not likely to be

There were thirty-two Republicans who voted for him out of compassion and one Democrat, Hendrick B. Wright. The lesson taught by Union Generals and war governors is not quite so clean as it might be.

Color your flutter. Farmers that try to sell white butter are all of the opinion that dairying does not pay. If they would use Wells, Richardson & Co'e, Perfected Butter Color, and market their butter in perfect condition, they would still get good prices, but it will not pay to make any but the best in color and quality. This color is used by all the leading creameries and dairymen, and is sold by druggists and merchants.
